Deputy

This is just for your awareness. We are doing a great deal of work on this planned protest. Our first intelligence product is due at approx. 1500 today. FSB and Region (as well as OPSA) are the main clients. Conference call with all of HENDON tomorrow at 1100. Our taskings are below.

Jim and Barcs,

Given that some sources of information on social media may be drying up in relation to this issue. Perhaps we should reach out to any assets that are truck drivers. And perhaps, we could reach out more broadly via COS.

All

I have spoken with all of you about progress on this. This is a follow-up in relation to yesterday's taskings:

1. Analysts assigned – for strategic and tactical intelligence production – all proceeding well (with 1 additional for mentoring) – more information incoming than anticipated;
2. DD for first strategic intelligence product – 1500 hrs today. It will be sent to two different recipient lists – To OPP partners (especially CIC VARGA) and external clients via HENDON;
3. HENDON call with partners planned and disseminated for 1100 hrs tomorrow;
4. Jim and Barcs – I have an operational tasking that I will communicate separately.

The contents of the strategic intelligence report will provide us the next opportunity to review any further action. Dan and Joe – I have included you so that you are aware of actions ongoing.

Pat

Subject: POIB Tasking - Trucking Slow Downs and /or Protests

Trav, Jim, Barcs, Rob,

The probability of truck protests has impact for many aspects of the OPP including the Protective Services Section. It may also impact our policing partners. It will certainly impact the Government due to infrastructure, economy and possible obstacles at government buildings – for that reason I have included Security Bureau. We will need to work quickly on this. Here are some taskings:

1. We will address this under the umbrella of Project HENDON – social protest etc with impact for public safety province-wide;
2. Assign experienced strategic analyst from HENDON (I am thinking Catherine) as central point of contact – also require open source monitoring;
 - a. Communicate the contact to partners / clients as discussed to gather information;
 - b. Get the [REDACTED] information asap;
 - c. Communicate with HENDON to gather any/all related information they may have;
3. Complete Strategic Report based on all information gathered to date – one should be completed for tomorrow and up-dated on Friday if developments illustrate the need;
4. Clients will include FSB and Regions as well as POJs. Special clients will include OPSA, PSS and SB;
5. Barcs – can you please organize a HENDON call for Friday morning on this topic matter – this will serve to advise our partners and expand collection.
6. Jim – I have an outreach call for you – just call me.

Pat

Patrick J. Morris

Superintendent

Bureau Commander, Provincial Operational Intelligence Bureau
